Three lawsuits were filed against HAJFL, LCAJFL and several members of the board, by two prior board members, each claiming, among other things, discrimination, assault and claims that the board of directors were responsible for the criminal actions brought against them by the Livingston County Prosecutors Office in 2008. Both federal cases were dismissed, and recently, they have agreed to voluntarily dismiss their third lawsuit, with prejudice.

We maintained from the beginning, and still do, that their allegations were false, and fictional. This latest and final dismissal has vindicated our steadfast commitment to see justice done.

Thank you to the good people of the Howell Junior football league, including its current and previous board members, who have had to deal with this distraction for over three years. Thank you for working tirelessly to provide a top-notch football and cheer experience for Howell's youth. Our league is stronger and better for the hardship you endured and we are grateful that you persevered through this unjust and unmerited claim.
